RECYCLED RUBBER

# SPORT FLOORING

## WE'RE ALL FITNESS. FROM THE GROUND UP.

Grid is your one stop manufacturing resource for fitness lockers and sport flooring. From large scale national fitness chains to boutique studios, our recycled rubber sport flooring can fit any project on any budget. Fitness centers, corporate gyms, resorts and spas, athletic facilities, country clubs, rec centers and more. Our reputation is built on the success of your project.

## BUILD THE RIGHT FLOOR FOR THE RIGHT WORKOUT.

CHOOSE YOUR BEST INSTALL METHOD WITH OUR ROLLED, STACKED OR TILED PRODUCTS AND MATCH YOUR IDEAL LEVEL OF FLECK WITH OUR CORE, FLEX AND FIT COLORS.

### FORMS

#### ROLLS

##### MAX DURABILITY WITH COLOR THROUGHOUT

An easy install for larger spaces, rolls offer uniform color throughout the full thickness of the floor. They are a single-ply non-laminated surface with high slip resistance, durability, cushioned resilience and stain resistant. Available in three thicknesses: **5/16", 3/8", 1/2"**

#### STACKED

##### UP TO 1" THICK + ADDED ACOUSTICAL PERFORMANCE

A great acoustical solution with added thickness over standard rolls. Stacked rolls are two-ply field-fused with off-set seams between a colored 4mm top wear layer (thickest in the industry) to never weaken. Created for the performance fitness space and combines with our lifting platforms. Available in three thicknesses: **3/8", 3/4", 1"**

#### TILES

##### EASY AND MODULAR INSTALLS

A portable system easily able to move spaces. Tiles are a 24" x 24" modular design with beveled bullnose edge, a **1" thick** acoustical backing and a waffle base. Tiles are designed for superior performance with ultimate ease of use.

### COLORS

#### CORE

##### SOLIDS AND LIGHT COLOR MIXES

Core is our set of solid and lightly patterned fleck color. The color fleck is embedded throughout the entire thickness in our Rolls and the 4mm wear layer in Stacked and Tiles.

#### FLEX

##### LARGER FLECKS AND MORE PATTERN

Flex adds just that, more flecks. The Flex set of colors, when viewed as a large floor, reads as our most patterned rubber floor. Great to hide dirt and debris.

#### FIT

##### LOTS OF FLECK FOR A TIGHT PATTERN

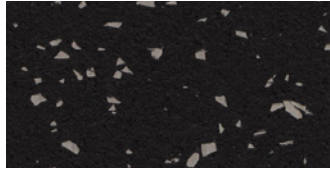

Fit adds the most flecks into the rubber getting away from a black floor and reading as a solid color. Great to mix core, flex and fit to define walkways, lifting areas and more.

## CORE

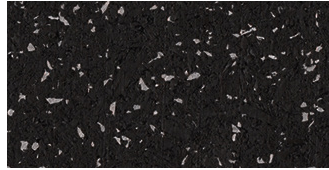

Core is our set of solid and lightly patterned fleck color.
