

MAINTENANCE GUIDE

IMPACT LOCKERS

RECOMMENDED MAINTENANCE SCHEDULE

The following recommended cleaning schedule is based on the an average sized facility with moderate traffic. Your facility's cleaning needs may vary. Monitor the cleanliness of your lockers and perform additional cleanings as needed to maintain a sanitary environment.

WEEKLY

Inspect the lockers for damage

Clean the interior + exterior of the lockers

MONTHLY

Check hinges for loose screws + door alignment

AS NEEDED

Dry spill promptly to avoid damage

CLEANING + MAINTENANCE PROCEDURES

REGULAR CLEANING

Impact Lockers should be cleaned at least once per week, depending on the frequency of usage. While you are cleaning the lockers, inspect them for damage + loose components that need to be tightened.

1. Spray the locker with your cleaning solution, using caution not to oversaturate the surface of the locker.
2. Using a clean cloth, wipe all exposed surfaces of the lockers. Make sure you completely dry off the locker before moving on to the next frame.

HINGE ADJUSTMENT

During regular usage over time, the hinges on your lockers will need to be readjusted to keep the hinge functioning properly. We use specialty hinges that can be adjusted in four directions.

To adjust the hinges, utilize the center screw on the hinge arm (A) to move the door left or right. Adjust the center screw on the hinge plate (B) to adjust the door in or out. Adjust the back screw on the hinge plate (C) to adjust the door up and down.

Some products utilize soft-close mechanisms integrated into the hinge interior. These function as a small piston that forces the door to close without slamming. These can also be adjusted to control the amount of resistance that they provide. To adjust the speed, simply slide the black switch to the left or right until you reach your desired speed.

RECOMMENDED CLEANER

Grid recommends you use Simple Green All-Purpose Cleaner when cleaning your Club Lockers.

Dilute 2 oz. of concentrate per gallon of water.

Simple Green is available at most major retailers.
